

<b>Erfahrungsaustauschkreis im Rahmen des ProdSG</b> <i>Exchange of experience circle within the frame of the ProdSG</i> <b>Festlegung / Decision</b>	<b>EK 1</b> <b>545-13</b> <b>Rev.1</b>
---	--

	
	<p><i>is to be applied in addition to the normatively required IP code labeling (e. g. IPX4). For these special case listed in the standard, the spray water protection evaluation is to be checked when the equipment is not plugged in.</i></p> <p><i>The same procedure is also to be applied for other plug-in power supply units designed exclusively for in-house operation and which display corresponding IP code information.</i></p> <p><b>MODIFICATION from 2009-05-07:</b></p> <p><i>With the last year's EK1 meeting it was decided to attach additionally the symbol for in-house use (see above) on power supply units for shavers, which must grant IPX4, but do not have an IPX4 plug (Euro plug).</i></p> <p><i>This decision is revised to the effect that a risk assessment is always to be carried out, whether with normal use water can penetrate the plug-in device. If this is not the case, further actions can be omitted (also no in-house use symbol). If water can penetrate the plug-in device, a plug in X4 design is necessary.</i></p>
<b>Entscheidung ist im Zertifikat aufzuführen?</b> <i>Decision must be listed in the certificate?</i>	<input checked="" type="checkbox"/> <b>ja / yes</b> <input type="checkbox"/> <b>nein / no</b>
<b>Entscheidung</b> <i>Decision</i>	Der Lösungsvorschlag ist angenommen 10.07.2013 und wurde am 23.05.2023 redaktionell überarbeitet.  <i>Proposal of solution is accepted 2011-07-09 and was editorially revised on 2023-05-23.</i>

Hinweis

Dieser Beschluss gilt inhaltlich – soweit möglich und sinnvoll – nicht für ein speziell beschriebenes Produkt, sondern immer auch für die dazugehörige Produktkategorie.

The content of this decision has to be considered – as far as possible and useful – not only for the certainly described product but also for the hole corresponding product category.
