

# TECHNICAL TOUR 2

## Getting to know WIKA

### WIKA

For over 75 years, WIKA has been a renowned partner and competent specialist for any task in the field of measurement technology. Within the WIKA Group, currently 11,200 employees are dedicated to maintain and improve technology in pressure, temperature, force and level measurement, and also in the fields of flow measurement, calibration and insulation gas solutions. In close cooperation with recognised universities, institutes and industrial companies, solutions for specific applications are constantly being developed.
